# Identifying and Supporting Students with Anxiety - LIVE 60 mins

## About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity. Over the last few years there has been an increase in numbers of students who are suffering from anxiety and depression in today's classrooms, particularly during the COVID-19 restrictions. These issues often create a barrier for students to learn or achieve their full potential. These barriers can be frustrating for the teacher and the student and can often lead to the student further isolating from the school community. This is only exacerbated when the behaviours are not recognised and interpreted as a lack of effort. In this session we will explore techniques that you can use when you are working with students who suffer from anxiety and depression, helping you to reengage the students while they address their health concerns.
