Supporting Students Struggling with Numeracy in Years 6-8 - LIVE 60 mins

About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity. This session will focus on strategies and techniques that teachers can use to support students who are struggling with numeracy. All teachers regardless of their nominated subject area have a responsibility to support the development of students' numeracy skills and knowledge. This session will provide a quick exploration of the six key numeracy ideas from the Australian Curriculum before sharing some ideas to build students' numeracy skills and knowledge. The thinking processes covered can be adapted across multiple curriculum areas. This is a practical session in which you will take away resources that you can use in your classroom, the next day. The content will be suitable for teachers working across the middle years (upper primary and lower secondary).

About the hosts

Teacher Learning Network (TLN)

TLN is a Melbourne based, not-for-profit professional development provider supported by the Australian Education Union Victoria Branch and the Independent Education Union Victoria/Tasmania Branch. SSTUWA will be your major source of communication before the online event. Prior to the live event, SSTUWA will email you detailed instructions about how to access the online training space. TLN will then provide immediate telephone support just before the event begins on the day, and during the training if required.
