Approaches to the Sustainability Cross-curriculum Priority - LIVE 60 mins via ZOOM

About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity. The Australian curriculum includes the following statement about the importance of teaching about sustainability: 'Education for sustainability develops the knowledge, skills, values and world views necessary for people to act in ways that contribute to more sustainable patterns of living. It enables individuals and communities to reflect on ways of interpreting and engaging with the world. Sustainability education is futures-oriented, focusing on protecting environments and creating a more ecologically and socially just world through informed action'. In this session you will be presented with resources and teaching approaches that will support you to confidently teach this cross-curriculum priority.

About the hosts

Teacher Learning Network (TLN)

TLN is a Melbourne based, not-for-profit professional development provider supported by the Australian Education Union Victoria Branch and the Independent Education Union Victoria/Tasmania Branch. SSTUWA will be your major source of communication before the online event. Prior to the live event, SSTUWA will email you detailed instructions about how to access the online training space. TLN will then provide immediate telephone support just before the event begins on the day, and during the training if required.
