Flipped Classrooms - Using Digital Technology to Enhance Student Learning

About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity for all primary and secondary teachers.

Flipping classrooms has been a 'hot topic' in education for some time, but not everyone has come to terms with the challenges and advantages. In this session the presenter will explore; 'What does flipped learning really mean?' 'What is the point?'

The presenter will unpack the learning and pedagogy and explore ways in which you can use digital technology to flip some content in your classroom, using examples from his own classroom experience.

Completing this course will contribute to one hour of professional learning and a certificate will be provided at the end of the session.

About the hosts

Teacher Learning Network (TLN)

TLN is a Melbourne based, not-for-profit professional development provider supported by the Australian Education Union Victoria Branch and the Independent Education Union Victoria/Tasmania Branch. SSTUWA will be your major source of communication before the online event. Prior to the live event, SSTUWA will email you detailed instructions about how to access the online training space. TLN will then provide immediate telephone support just before the event begins on the day, and during the training if required.
