About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity for primary educators.

There are a range of different theories about how student's literacy skills should be supported. We need to ensure that students receive relevant, specific and timely feedback on their learning and, more importantly, feed forward on where they should go next. Implementing this can be challenging and there are different opinions on what achieving success looks like. This session will explore strategies to structure the literacy program to maximise the opportunities to incorporate one to one conferencing and focus on the needs of students.
