Students with Additional Needs - Engaging Students with Autism Spectrum Disorder

About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity for primary and secondary educators.

Students who experience the condition of ASD, or Autism Spectrum Disorder, have specific learning needs. As a teacher it is important that you have a wide range of strategies to meet the learning needs of students and children who experience this condition. For example, one of the key characteristics of students with ASD is a focus on fixed interests. This can manifest as an intense focus on a narrow topic and can be used by teachers to engage students with ASD in the learning that is happening in the classroom. In this course the presenter will explore strategies that can assist students with ASD to successfully achieve their learning goals in your classroom.

About the hosts

Teacher Learning Network (TLN)

TLN is a Melbourne based, not-for-profit professional development provider supported by the Australian Education Union Victoria Branch and the Independent Education Union Victoria/Tasmania Branch. SSTUWA will be your major source of communication before the online event. Prior to the live event, SSTUWA will email you detailed instructions about how to access the online training space. TLN will then provide immediate telephone support just before the event begins on the day, and during the training if required.
