# SharpReading Webinar: The Struggling Older Reader: Years 3-8

## About the course

This 4-hour Start-Up Webinar PLUS 12 months access to our ONLiNE Training will get you off to a flying start with the SharpReading approach to assisting the Struggling Older Reader. The ONLiNE course will give you ongoing access to the theory, video models, tips and suggestions for consolidating and reviewing your learning.

Almost every Year 3-8 classroom has them; those readers who still struggle with decoding fluency, whose reading age is one plus years behind their chronological age, for whom the gap is widening all the time and whose confidence levels about reading are in tatters.

This course will equip you to deliver a well researched and proven 8-10 week intervention that will develop those missing decoding strategies and rebuild reader confidence. The best news is that you can integrate it into your normal classroom reading group rotation so they don't have to be withdrawn. We also take care of the next very important part, integrating the reader back into a mainstream guided reading program. Please note this is not intended for students with extreme learning difficulties.
