

Professional

Making Makers: The Design and Engineering Process (PP-6)

About the course

Discover new ways to teach innovative thinking with hands-on creation at the core of this engineering workshop. Explaining the power of innovation and creativity to your students can sometimes be a challenge – so why not show them instead?

Learn how Maker Spaces link to the Technologies curriculum and what type of activities truly engage our students in 21st century learning. You will explore the applications of the Maker Movement to STEM education, and learn tips and tricks on how to inspire a 'Maker culture' in your school.

Workshop participants will also get a chance to do some making of their own, from cardboard creations to electronics, and learn how to kick-start the classroom of the future.

Date

Wednesday 7 October 2020

Time

9am - 12.30pm

Cost

Member: Full time: \$150

Member: Part time/relief/student: \$75

Non-member: \$250

Includes morning tea

Facilitator

Tim Schmitz

Professional Learning Consultant
SCITECH

Outcomes

During this course participants will:

Unpack and decode the Technologies learning area of the WA curriculum, including both Design and Technologies and Digital Technologies.

Understand and implement the Engineering Process through hands-on activity.

Explore the meaning behind commonly-referenced terms such as "maker space", "maker movement" and "maker culture".

Connect with lists of resources and ideas for creating a maker space or maker culture in your school, including recommended equipment, suppliers, safety tips and project ideas.
