Improving Assessment Strategies in the Primary Classroom - LIVE 60 mins

About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity. Assessing students accurately is essential when teaching students in a way that caters for their needs. Incorporating assessment into the routines of the classroom to make them more engaging and less tedious can create a culture of reflection learning. This session explores ways to design formative assessments that allow a teacher to monitor student progress and assess student achievement accurately. Strategies that were effective for remote learning during COVID-19 lockdowns can also be incorporated into the mainstream classroom to make practices more efficient and effective. This means creating assessments that provide rich enough data to allow a teacher to make informed, comparison-based judgements on student progress.
