Managing Disruptions in the Classroom - LIVE 60 mins

About the course

The SSTUWA, in partnership with TLN in Melbourne, are pleased to offer this online learning opportunity. The complexity of creating a safe and supportive learning environment for students is socially and emotionally demanding of teachers. Recognising the triggers that can escalate and create disruptive situations will help lead to the creation of productive environments. The focus of this session is in recognising the warning signs and intervening before behaviour escalates and becomes very disruptive. Gaining an understanding of strategies to de-escalate, manage challenging behaviour, and redirect undesirable behaviour will allow students to remain engaged with their learning.
