EOIs open for AEU Federal Women's Conference

Each year, the branches and associated bodies of the Australian Education Union hold an annual women's conference.

This is a fantastic opportunity for women members to hear from a range of guest speakers, become more aware of professional and industrial matters and build a network within the education community across Australia.

The theme for this years' conference is "Because of Union, She Can".

Click here for more information and to download and submit your EOI.
