App Safety advice

Your safety - every day at work - is a union priority. Every school and college **must** be a safe place for all staff and all students. That’s why we’re focused on:

- Immediate advice and management of violent incidents at work.
- And liaising with the department and the Minister to deliver on their promise to keep you safe.

We've created these videos with some key safety messages. Watch them and share them with your colleagues.

NOTE: to administrators the form below must stay in that main area so that it is visible on the SSTUWA app.
